## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier					
Trade name	:	CEPC			
REACH Registration Number	:	01-2119965138-30-0001			
Substance name	:	Dihexadecyl peroxodicarbonate			
EC-No.	:	247-611-0			

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- : polymerisation initiators stance/Mixture

#### 1.3 Details of the supplier of the safety data sheet

Company	:	United Initiators GmbH DrGustav-Adolph-Str. 3 82049 Pullach
Telephone	:	+49 / 89 / 74422 – 0
E-mail address of person responsible for the SDS	:	contact@united-in.com

#### **1.4 Emergency telephone number**

+44 1235 239670

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Organic peroxides, Type F H242: Heating may cause a fire.

#### 2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

# CEPC

Version 1.3	Revision Date: 18.06.2024		S Numbe	
Haza	rd pictograms	:		
Signa	I word	: '	Warning	
Haza	rd statements	:	H242 H	eating may cause a fire.
Preca	autionary statements	     	<sup>i</sup> lames an P234 K P280 W	on: eep away from heat, hot surfaces, sparks, open d other ignition sources. No smoking. eep only in original packaging. 'ear protective gloves/ protective clothing/ eye protec- protection/ hearing protection.
			<b>Storage:</b> P411 S	

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

## **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

Substance name	:	Dihexadecyl peroxodicarbonate
EC-No.	:	247-611-0
Chemical nature	:	Organic Peroxide Solid

#### Components

Chemical name	CAS-No.	Concentration (% w/w)
	EC-No.	
Dihexadecyl peroxodicar-	26322-14-5	<= 100
bonate	247-611-0	

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

# CEPC

Version	Revision Date:	SDS Number:	Date of last issue: 09.03.2023
1.3	18.06.2024	60000000005	Date of first issue: 21.09.2022

### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures General advice Take off contaminated clothing and shoes immediately. : Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice. Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended. Protection of first-aiders First Aid responders should pay attention to self-protection : and use the recommended protective clothing If inhaled Administer oxygen if breathing is difficult or cyanosis is ob-: served. If breathed in, move person into fresh air. If not breathing, give artificial respiration. If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician. In case of skin contact If symptoms persist, call a physician. : Wash contaminated clothing before re-use. If on skin, rinse well with water. If on clothes, remove clothes. In case of eye contact In the case of contact with eyes, rinse immediately with plenty • of water and seek medical advice. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist. If swallowed Keep respiratory tract clear. : If symptoms persist, call a physician. 4.2 Most important symptoms and effects, both acute and delayed

None known.

### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically and supportively.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

# CEPC

## **SECTION 5: Firefighting measures**

5.1 Extinguishing media		
Suitable extinguishing media	:	Water spray jet Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet
5.2 Special hazards arising from	the	e substance or mixture
Specific hazards during fire- fighting	:	Risk of explosion if heated under confinement. Possible emission of gaseous decomposition products may lead to a dangerous pressure build-up. Avoid confinement. Contact with incompatible materials or exposure to tempera- tures exceeding SADT may result in a self-accelerating de- composition reaction with release of flammable vapors which may auto-ignite. The product burns violently. Flash back possible over considerable distance. Do not allow run-off from fire fighting to enter drains or water courses. Vapours may form explosive mixtures with air. The product will float on water and can be reignited on surface water. Cool closed containers exposed to fire with water spray.
5.3 Advice for firefighters		
Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if nec- essary. Use personal protective equipment.
Specific extinguishing meth- ods	:	Do not use a solid water stream as it may scatter and spread fire. Remove undamaged containers from fire area if it is safe to do so. Use water spray to cool unopened containers.
Further information	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use a water spray to cool fully closed containers. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	Follow safe handling advice and personal protective equip- ment recommendations. Use personal protective equipment. Avoid dust formation. Remove all sources of ignition. Never return spills in original containers for re-use. Treat recovered material as described in the section "Disposal considerations".
----------------------	---	---

#### 6.2 Environmental precautions

Environmental precautions	:	Prevent product from entering drains.
		Prevent further leakage or spillage if safe to do so.
		If the product contaminates rivers and lakes or drains inform
		respective authorities.

#### 6.3 Methods and material for containment and cleaning up

		÷ ·
Methods for cleaning up	:	Contact with incompatible substances can cause decomposi- tion at or below SADT. Clear spills immediately. Suppress (knock down) gases/vapours/mists with a water spray jet. To clean the floor and all objects contaminated by this materi- al, use plenty of water. Soak up with inert absorbent material. Isolate waste and do not reuse. Non-sparking tools should be used. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable.

#### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Advice on safe handling	:	Open drum carefully as content may be under pressure. Protect from contamination. Do not breathe vapours/dust. Take precautionary measures against static discharges.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### Occupational Exposure Limits

dust of any kind

10 mg/m3 Value type (Form of exposure): TWA (Inhalable) Basis: GB EH40

4 mg/m3 Value type (Form of exposure): TWA (Respirable fraction) Basis: GB EH40

Contains no substances with occupational exposure limit values.

#### Derived No Effect Level (DNEL):

Substance name	End Use	Exposure routes	Potential health ef- fects	Value
Dihexadecyl perox- odicarbonate	Workers	Inhalation	Long-term systemic effects	10 mg/m3
	Workers	Skin contact	Long-term systemic effects	33.33 mg/kg bw/day

#### Predicted No Effect Concentration (PNEC):

Substance name	Environmental Compartment	Value
Dihexadecyl peroxodicarbonate	Sewage treatment plant	12.2 mg/l

#### 8.2 Exposure controls

#### Engineering measures

Minimize workplace exposure concentrations.

#### Personal protective equipment

Eye/face protection	:	Ensure that eyewash stations and safety showers are close to the workstation location. Please follow all applicable local/national requirements when selecting protective measures for a specific workplace. Always wear eye protection when the potential for inadvertent eye contact with the product cannot be excluded. Tightly fitting safety goggles Please wear suitable protective goggles. Also wear face pro- tection if there is a splash hazard.
Hand protection Material Break through time Glove thickness	:	butyl-rubber 480 min 0.47 mm

### 9.2 Other information

Self-Accelerating decomposi- tion temperature (SADT)	:	40 °C Method: UN-Test H.4 SADT-Self Accelerating Decomposition Temperature. Lowest temperature at which the tested package size will undergo a self-accelerating decomposition reaction.
Self-heating substances	:	The substance or mixture is not classified as self heating.
Particle size	:	not determined
Particle Size Distribution	:	No data available
Self-ignition	:	The substance or mixture is not classified as pyrophoric.

## **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

Stable under recommended storage conditions. Heating may cause a fire or explosion.

#### 10.2 Chemical stability

Stable under recommended storage conditions. No decomposition if stored normally.

#### 10.3 Possibility of hazardous reactions

Hazardous reactions :	Dust may form explosive r	mixture in air.
-----------------------	---------------------------	-----------------

#### 10.4 Conditions to avoid

Conditions to avoid	<ul> <li>Protect from contamination.</li> <li>Contact with incompatible substances can cause decomposition at or below SADT.</li> <li>Heat, flames and sparks.</li> </ul>
	Avoid confinement.

#### 10.5 Incompatible materials

Materials to avoid : Accelerators, strong acids and bases, heavy metals and heavy metal salts, reducing agents

#### **10.6 Hazardous decomposition products**

Irritant, caustic, flammable, noxious/toxic gases and vapours can develop in the case of fire and decomposition

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

#### Product:

Species	: Rabbit
Method	: OECD Test Guideline 405
Result	: No eye irritation

#### Components:

#### Dihexadecyl peroxodicarbonate:

Species	:	Rabbit
Method	:	OECD Test Guideline 405
Result	:	No eye irritation

#### Respiratory or skin sensitisation

#### Skin sensitisation

Based on available data, the classification criteria are not met.

#### Respiratory sensitisation

Not classified due to lack of data.

#### Product:

Test Type	:	Local lymph node assay (LLNA)
Species	:	Mouse
Method	:	OECD Test Guideline 429
Result	:	Does not cause skin sensitisation.

#### Components:

#### Dihexadecyl peroxodicarbonate:

Test Type :	Local lymph node assay (LLNA)
Species :	Mouse
Method :	OECD Test Guideline 429
Result :	Does not cause skin sensitisation.

#### Germ cell mutagenicity

Not classified due to lack of data.

### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Product	:	Dispose of wastes in an approved waste disposal facility. The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemi- cal or used container.
Contaminated packaging	:	Dispose of in accordance with local regulations. Clean container with water. Dispose of contents/ container to an approved waste disposal plant. Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.

## **SECTION 14: Transport information**

#### 14.1 UN number

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

Version 1.3	Revision Date: 18.06.2024	SDS Number:Date of last issue: 09.03.2023600000000005Date of first issue: 21.09.2022
ADR		: UN 3120
RID		: UN 3120 Not permitted for transport
IMDG		: UN 3120
ΙΑΤΑ		: UN 3120 Not permitted for transport
14.2 UN p	roper shipping name	
ADR		: ORGANIC PEROXIDE TYPE F, SOLID, TEMPERATURE CONTROLLED (DICETYL PEROXYDICARBONATE)
RID		: ORGANIC PEROXIDE TYPE F, SOLID, TEMPERATURE CONTROLLED Not permitted for transport
IMDG		: ORGANIC PEROXIDE TYPE F, SOLID, TEMPERATURE CONTROLLED (DICETYL PEROXYDICARBONATE)
ΙΑΤΑ		: ORGANIC PEROXIDE TYPE F, SOLID, TEMPERATURE CONTROLLED Not permitted for transport
14.3 Trans	sport hazard class(es)	
		Class Subsidiary risks
ADR		: 5.2
RID		: Not permitted for transport
IMDG		: 5.2
ΙΑΤΑ		: Not permitted for transport

### 14.5 Environmental hazards

<b>ADR</b> Environmentally hazardous	:	no
RID	:	Not permitted for transport
IMDG Marine pollutant	:	no

#### 14.6 Special precautions for user

#### Additional advice

Temperature controlled	transport .:
Control temperature	: 30 °C
Emergency temperature	: 35 °C

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

### **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mix-ture

Relevant EU provisions transposed through retained EU law

UK REACH List of restrictions (Annex 17)	:	Not applicable
UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation	:	Not applicable
The Persistent Organic Pollutants Regulations (retained Regulation (EU) 2019/1021 as amended for Great Britain)	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
UK REACH List of substances subject to authorisation (Annex XIV)	:	Not applicable
GB Export and import of hazardous chemicals - Prior Informed Consent (PIC) Regulation	:	Not applicable

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758
