## CUROX<sup>®</sup>M-403

| Version | Revision Date: |
|---------|----------------|
| 2.0     | 10.10.2023     |

SDS Number: 60000000321 Date of last issue: 06.03.2023 Date of first issue: 29.11.2022

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

### **1.1 Product identifier**

Trade name : CUROX<sup>®</sup>M-403

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Use of the Sub- | : | Hardener |
|-----------------|---|----------|
| stance/Mixture  |   |          |

#### 1.3 Details of the supplier of the safety data sheet

| Company  | : | United Initiators GmbH<br>DrGustav-Adolph-Str. 3<br>82049 Pullach |
|--|---|---|
| Telephone  | : | +49 / 89 / 74422 – 0  |
| E-mail address of person responsible for the SDS | : | contact@united-in.com   |

### **1.4 Emergency telephone number**

+44 1235 239670

### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

# Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

| Organic peroxides, Type D       | H242: Heating may cause a fire.                |
|---------------------------------|--|
| Acute toxicity, Category 4      | H302: Harmful if swallowed.                    |
| Acute toxicity, Category 4      | H332: Harmful if inhaled.                      |
| Skin corrosion, Sub-category 1B | H314: Causes severe skin burns and eye damage. |
| Serious eye damage, Category 1  | H318: Causes serious eye damage.               |
|                                 |  |

### 2.2 Label elements

# Labelling (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Hazardous components which must be listed on the label: 2-Butanone, peroxide (CAS-No. 1338-23-4)

### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| General advice :             | <ul> <li>Take off contaminated clothing and shoes immediately.</li> <li>Call a physician immediately.</li> <li>Never give anything by mouth to an unconscious person.</li> <li>If unconscious, place in recovery position and seek medical advice.</li> <li>Move out of dangerous area.</li> <li>Show this safety data sheet to the doctor in attendance.</li> <li>Do not leave the victim unattended.</li> <li>Symptoms of poisoning may appear several hours later.</li> </ul> |
|------------------------------|--|
| Protection of first-aiders : | First Aid responders should pay attention to self-protection and use the recommended protective clothing   |
| If inhaled :                 | Administer oxygen if breathing is difficult or cyanosis is ob-<br>served.<br>Call a physician immediately.<br>If breathed in, move person into fresh air.<br>If not breathing, give artificial respiration.<br>Respiratory tract burning possible if aerosols are inhaled.<br>Call a physician or poison control centre immediately.<br>If unconscious, place in recovery position and seek medical<br>advice.<br>Keep respiratory tract clear.                                  |
| In case of skin contact :    | If symptoms persist, call a physician.<br>Immediate medical treatment is necessary as untreated<br>wounds from corrosion of the skin heal slowly and with difficul-<br>ty.<br>In case of contact, immediately flush skin with plenty of water<br>for at least 15 minutes while removing contaminated clothing  |

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

| Personal precautions : | Follow safe handling advice and personal protective equip-<br>ment recommendations.<br>Beware of vapours accumulating to form explosive concentra-<br>tions. Vapours can accumulate in low areas.<br>Use personal protective equipment.<br>Remove all sources of ignition.<br>Never return spills in original containers for re-use.<br>Treat recovered material as described in the section "Disposal<br>considerations". |
|------------------------|--|
|------------------------|--|

### 6.2 Environmental precautions

| Environmental precautions | : | Prevent product from entering drains.                         |
|---------------------------|---|---|
|                           |   | Prevent further leakage or spillage if safe to do so.         |
|                           |   | If the product contaminates rivers and lakes or drains inform |
|                           |   | respective authorities.                                       |

### 6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | <ul> <li>Contact with incompatible substances can cause decomposition at or below SADT.<br/>Clear spills immediately.</li> <li>Suppress (knock down) gases/vapours/mists with a water spray jet.</li> <li>To clean the floor and all objects contaminated by this material, use plenty of water.</li> <li>Soak up with inert absorbent material.</li> <li>Isolate waste and do not reuse.</li> <li>Non-sparking tools should be used.</li> <li>Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.</li> </ul> |
|-------------------------|---|
|-------------------------|---|

#### 6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

| Technical measures                              | : | See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.   |
|---|---|---|
| Advice on safe handling                         | : | Open drum carefully as content may be under pressure.<br>Protect from contamination.<br>Do not swallow.<br>Do not breathe vapours/dust.<br>Avoid contact with skin and eyes.<br>Avoid formation of aerosol.<br>Take precautionary measures against static discharges.<br>Never return any product to the container from which it was<br>originally removed.<br>Provide sufficient air exchange and/or exhaust in work rooms.<br>Avoid confinement.<br>Keep away from heat, hot surfaces, sparks, open flames and<br>other ignition sources. No smoking.<br>Smoking, eating and drinking should be prohibited in the ap-<br>plication area.<br>Wash thoroughly after handling.<br>For personal protection see section 8. |
| Advice on protection against fire and explosion | : | Take necessary action to avoid static electricity discharge<br>(which might cause ignition of organic vapours). Keep away<br>from heat and sources of ignition. Use only explosion-proof<br>equipment. Keep away from open flames, hot surfaces and<br>sources of ignition. Keep away from combustible material. Do<br>not spray on a naked flame or any incandescent material.   |

### 8.2 Exposure controls

#### Engineering measures

Minimize workplace exposure concentrations.

### Personal protective equipment

| Eye/face protection | : | Ensure that eyewash stations and safety showers are close to<br>the workstation location.<br>Please follow all applicable local/national requirements when<br>selecting protective measures for a specific workplace.<br>Always wear eye protection when the potential for inadvertent<br>eye contact with the product cannot be excluded.<br>Tightly fitting safety goggles<br>Please wear suitable protective goggles. Also wear face pro-<br>tection if there is a splash hazard.   |
|---------------------|---|--|
| Hand protection     |   |  |
| Material            | : | Nitrile rubber   |
| Break through time  | : | < 30 min   |
| Glove thickness     | : | 0.40 mm  |
| Material            | : | butyl-rubber   |
| Break through time  | : | 480 min  |
| Glove thickness     | : | 0.47 mm  |
| Remarks             | : | The data about break through time/strength of material are<br>standard values! The exact break through time/strength of<br>material has to be obtained from the producer of the protec-<br>tive glove. Choose gloves to protect hands against chemicals<br>depending on the concentration and quantity of the hazard-<br>ous substance and specific to place of work. For special ap-<br>plications, we recommend clarifying the resistance to chemi-<br>cals of the aforementioned protective gloves with the glove<br>manufacturer. Wash hands before breaks and at the end of<br>workday. |

### **SECTION 10: Stability and reactivity**

### 10.1 Reactivity

Stable under recommended storage conditions. Heating may cause a fire or explosion.

#### 10.2 Chemical stability

Stable under recommended storage conditions. No decomposition if stored normally.

### **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

Product

 Dispose of wastes in an approved waste disposal facility. The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container.

#### Other regulations:

Gefahrgruppe nach TRGS 741: lb (German regulatory requirements)

#### The components of this product are reported in the following inventories:

| TCSI (TW)  | : | On the inventory, or in compliance with the inventory                                      |
|------------|---|--|
| TSCA (US)  | : | All substances listed as active on the TSCA inventory                                      |
| AIIC (AU)  | : | All components are listed on the inventory, regulatory obliga-<br>tions/restrictions apply |
| DSL (CA)   | : | All components of this product are on the Canadian DSL                                     |
| ENCS (JP)  | : | On the inventory, or in compliance with the inventory                                      |
| ISHL (JP)  | : | On the inventory, or in compliance with the inventory                                      |
| KECI (KR)  | : | On the inventory, or in compliance with the inventory                                      |
| PICCS (PH) | : | On the inventory, or in compliance with the inventory                                      |
| IECSC (CN) | : | On the inventory, or in compliance with the inventory                                      |
| TECI (TH)  | : | On the inventory, or in compliance with the inventory                                      |
