## NOROX<sup>®</sup>CHM-50

Version 3.0 Revision Date: 03.08.2023 SDS Number: 600000000425

Date of last issue: 22.02.2021 Date of first issue: 07.04.2017

#### SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : NOROX<sup>®</sup>CHM-50

Company	:	United Initiators Pty Ltd
Address	:	20-22 McPherson Street Banksmeadow NSW 2019 Australia
Telephone	:	+61 2 9188 3690 (Monday-Friday office hours only)
Emergency telephone number	:	+49 89 744220 (24 hours specialist advise)
E-mail address	:	cs-initiators.au@united-in.com

Recommended use of the chemical and restrictions on use

Recommended use : Hardener

#### SECTION 2. HAZARDS IDENTIFICATION

	GHS Classification		
	Flammable liquids	:	Category 3
	Organic peroxides	:	Type F
	Acute toxicity (Oral)	:	Category 4
	Acute toxicity (Inhalation)	:	Category 3
	Skin corrosion/irritation	:	Sub-category 1B
	Serious eye damage/eye irri- tation	:	Category 1
1	Carcinogenicity	:	Category 1B
	Specific target organ toxicity - repeated exposure	:	Category 2
	Short-term (acute) aquatic hazard	:	Category 2
	Long-term (chronic) aquatic hazard	:	Category 2

rsion )	Revision Date: 03.08.2023	SDS Number: 600000000425	Date of last issue: 22.02.2021 Date of first issue: 07.04.2017

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

:

Substance / Mixture	:	Mixture	

Chemical nature	:	Organic Peroxide
		Liquid

#### Components

None known.

Chemical name	CAS-No.	Concentration (% w/w)
methyl acetoacetate	105-45-3	>= 45 -< 50
Cumene hydroperoxide	80-15-9	>= 40 -< 45
Cumene	98-82-8	>= 5 -< 7.5
acetophenone	98-86-2	>= 1 -< 2.5
Benzenemethanol, alpha, alpha-dimethyl-	617-94-7	>= 1 -< 5

#### **SECTION 4. FIRST AID MEASURES**

General advice

Take off contaminated clothing and shoes immediately. Call a physician immediately. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical

Version 3.0	Revision Date: 03.08.2023	SDS Number: 600000000425	Date of last issue: 22.02.2021 Date of first issue: 07.04.2017

Version 3.0	Revision Date: 03.08.2023	SDS Number: 60000000425	Date of last issue: 22.02.2021 Date of first issue: 07.04.2017
		exposure.	
		Causes severe	burns.

Protection of first-aiders	:	First Aid responders should pay attention to self-protection
		and use the recommended protective clothing

### Notes to physician : Treat symptomatically and supportively.

#### SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media	:	Water spray jet Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet
Specific hazards during fire- fighting	:	Risk of explosion if heated under confinement. Possible emission of gaseous decomposition products may lead to a dangerous pressure build-up. Avoid confinement. Contact with incompatible materials or exposure to tempera- tures exceeding SADT may result in a self-accelerating de- composition reaction with release of flammable vapors which may auto-ignite. The product burns violently. Flash back possible over considerable distance. Do not allow run-off from fire fighting to enter drains or water courses. Vapours may form explosive mixtures with air. The product will float on water and can be reignited on surface water. Cool closed containers exposed to fire with water spray.
Specific extinguishing methods	:	Use extinguishing measures that are appropriate to local cir- cumstances and the surrounding environment. Use a water spray to cool fully closed containers. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. Do not use a solid water stream as it may scatter and spread fire. Remove undamaged containers from fire area if it is safe to do so. Use water spray to cool unopened containers.
Special protective equipment	:	Wear self-contained breathing apparatus for firefighting if nec-

#### SECTION 7. HANDLING AND STORAGE

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Advice on protection against fire and explosion	:	Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapours). Keep away from heat and sources of ignition. Use only explosion-proof equipment. Keep away from open flames, hot surfaces and sources of ignition.

Version 3.0	Revision Date: 03.08.2023		DS Number: 0000000425	Date of last issue: 22.02.2021 Date of first issue: 07.04.2017

#### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Cumene	98-82-8	TWA	25 ppm 125 mg/m3	AU OEL
	Further inforn	nation: Skin abso	orption	
		STEL	75 ppm 375 mg/m3	AU OEL
	Further inforn	nation: Skin abso	orption	
		TWA	5 ppm	ACGIH
acetophenone	98-86-2	TWA	10 ppm	ACGIH

**Engineering measures** : Minimize workplace exposure concentrations.

#### Personal protective equipment

Respiratory protection		In the case of dust or aerosol formation use respirator with an approved filter.
Filter type	:	ABEK-filter
Hand protection Material Break through time Glove thickness	: : :	butyl-rubber 60 min 0.5 mm
Remarks	:	The data about break through time/strength of material are standard values! The exact break through time/strength of material has to be obtained from the producer of the protec- tive glove. Choose gloves to protect hands against chemicals depending on the concentration and quantity of the hazard- ous substance and specific to place of work. For special ap- plications, we recommend clarifying the resistance to chemi- cals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday.
Eye protection	:	Ensure that eyewash stations and safety showers are close to the workstation location. Please follow all applicable local/national requirements when selecting protective measures for a specific workplace. Always wear eye protection when the potential for inadvertent eye contact with the product cannot be excluded. Tightly fitting safety goggles

## NOROX<sup>®</sup>CHM-50

Version 3.0	Revision Date: 03.08.2023		DS Number: 0000000425	Date of last issue: 22.02.2021 Date of first issue: 07.04.2017
			Please wear suita tection if there is a	ble protective goggles. Also wear face pro- a splash hazard.
Skin and body protection		:	resistance data an potential. Additional body ga task being perform posable suits) to a Wear as appropria	a protective clothing based on chemical and an assessment of the local exposure arments should be used based upon the ned (e.g., sleevelets, apron, gauntlets, dis- avoid exposed skin surfaces. atte: ntistatic protective clothing.
Protec	tive measures	:	••••••	tive equipment must be selected according on and amount of the dangerous substance kplace.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	:	liquid
Colour	:	light yellow
Odour	:	aromatic
рН	:	Not applicable
Melting point/range	:	No data available
Boiling point/boiling range	:	Not applicable Decomposition
Flash point	:	60 °C
Flammability (solid, gas)	:	Not applicable
Upper explosion limit / Upper flammability limit	:	No data available
Lower explosion limit / Lower flammability limit	:	No data available
Vapour pressure	:	No data available
Relative vapour density	:	No data available
Density	:	1.0 g/cm3

## NOROX<sup>®</sup>CHM-50

VersionRevision Date:SDS Number:Date of last issue: 22.023.003.08.202360000000425Date of first issue: 07.04	
---	--

Solubility(ies) Water solubility	:	slightly soluble
Partition coefficient: n- octanol/water	:	No data available
Self-Accelerating decomposi- tion temperature (SADT)	:	60 °C SADT-Self Accelerating Decomposition Temperature. Lowest temperature at which the tested package size will undergo a self-accelerating decomposition reaction.
Viscosity		
Viscosity, dynamic	:	No data available
Viscosity, kinematic	:	No data available
Oxidizing properties	:	The substance or mixture is not classified as oxidizing. Organic peroxide

#### SECTION 10. STABILITY AND REACTIVITY

Reactivity	:	Stable under recommended storage conditions. Heating may cause a fire or explosion.	
Chemical stability	:	Stable under recommended storage conditions. No decomposition if stored normally.	
Possibility of hazardous reac- tions	:	Vapours may form explosive mixture with air.	
Conditions to avoid	:	Protect from contamination. Contact with incompatible substances can cause decomposi- tion at or below SADT. Heat, flames and sparks. Avoid confinement.	
Incompatible materials	:	Accelerators, strong acids and bases, heavy metals and heavy metal salts, reducing agents	
Hazardous decomposition products	:	Irritant, caustic, flammable, noxious/toxic gases and vapours can develop in the case of fire and decomposition	

#### SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity Harmful if swallowed.

Disposal methods		
Waste from residues	:	Dispose of wastes in an approved waste disposal facility. The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemi- cal or used container.
Contaminated packaging	:	Dispose of in accordance with local regulations. Clean container with water. Dispose of contents/ container to an approved waste disposal plant. Empty remaining contents. Dispose of as unused product. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum.
