according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

NOROX[®]PD-40

Version	Revision Date:	SDS Number:	Date of last issue: 08.03.2023
3.3	06.06.2024	60000000160	Date of first issue: 08.04.2016

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	: NOROX [®] PD-40
Unique Formula Identifier (UFI)	: WJN8-C0SX-W00D-Y5H0

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub-	:	Hardener
stance/Mixture		

1.3 Details of the supplier of the safety data sheet

Company	:	United Initiators GmbH DrGustav-Adolph-Str. 3 82049 Pullach
Telephone	:	+49 / 89 / 74422 – 0
E-mail address of person responsible for the SDS	:	contact@united-in.com

1.4 Emergency telephone number

+44 1235 239670

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)					
Organic peroxides, Type D	H242: Heating may cause a fire.				
Eye irritation, Category 2	H319: Causes serious eye irritation.				
Skin sensitisation, Category 1	H317: May cause an allergic skin reaction.				
Reproductive toxicity, Category 2	H361: Suspected of damaging fertility or the un- born child.				
Specific target organ toxicity - single ex- posure, Category 3, Respiratory system	H335: May cause respiratory irritation.				

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Version	Revision Date:	SDS Number:	Date of last issue: 08.03.2023
3.3	06.06.2024	60000000160	Date of first issue: 08.04.2016

2.2 Label elements

Labelling (REGULATION (EC Hazard pictograms	No 1272/2008)	
Signal word	Danger	
Hazard statements	 H242 Heating may cause a fire. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H335 May cause respiratory irritation. H361 Suspected of damaging fertility or the unborn child. 	
Precautionary statements	 Prevention: P201 Obtain special instructions before use. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P234 Keep only in original packaging. P261 Avoid breathing mist or vapours. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.)-
	Response: P370 + P378 In case of fire: Use water spray, alcohol- resistant foam, dry chemical or carbon dioxide to extinguish.	

Hazardous components which must be listed on the label: 3,5-dimethyl-1,2-dioxolane-3,5-diol (CAS-No. 13784-51-5) Diacetone alcohol (CAS-No. 123-42-2)

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

SECTION 4: First aid measures

4.1 Description of first aid measures General advice : Take off contaminated clothing and shoes immediately. Call a physician immediately. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice. Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended. Symptoms of poisoning may appear several hours later. Protection of first-aiders First Aid responders should pay attention to self-protection · and use the recommended protective clothing If inhaled Administer oxygen if breathing is difficult or cyanosis is ob-• served. If breathed in, move person into fresh air. If not breathing, give artificial respiration. If unconscious, place in recovery position and seek medical advice. Keep respiratory tract clear. If symptoms persist, call a physician. In case of skin contact If symptoms persist, call a physician. In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash contaminated clothing before re-use. If on skin, rinse well with water. If on clothes, remove clothes. In case of eye contact In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. If eye irritation persists, consult a specialist. If swallowed Call a physician immediately. : Rinse mouth thoroughly with water. Keep respiratory tract clear. If symptoms persist, call a physician. 4.2 Most important symptoms and effects, both acute and delayed Symptoms sensitising effects :

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

NOROX[®]PD-40

Version	Revision Date:	SDS Number:	Date of last issue: 08.03.2023
3.3	06.06.2024	60000000160	Date of first issue: 08.04.2016

Causes serious eye irritation. May cause respiratory irritation. Suspected of damaging fertility or the unborn child.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment

: Treat symptomatically and supportively.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media		Water spray jet Alcohol-resistant foam Carbon dioxide (CO2) Dry chemical
Unsuitable extinguishing media	:	High volume water jet

5.2 Special hazards arising from the substance or mixture

-	- I		
	Specific hazards during fire- fighting	:	Risk of explosion if heated under confinement. Possible emission of gaseous decomposition products may lead to a dangerous pressure build-up. Avoid confinement. Contact with incompatible materials or exposure to tempera- tures exceeding SADT may result in a self-accelerating de- composition reaction with release of flammable vapors which may auto-ignite. The product burns violently. Flash back possible over considerable distance. Do not allow run-off from fire fighting to enter drains or water courses. Vapours may form explosive mixtures with air. Cool closed containers exposed to fire with water spray.
5.3	Advice for firefighters		
	Special protective equipment for firefighters	:	Wear self-contained breathing apparatus for firefighting if nec- essary. Use personal protective equipment.
	Specific extinguishing meth- ods	:	Do not use a solid water stream as it may scatter and spread fire. Remove undamaged containers from fire area if it is safe to do so. Use water spray to cool unopened containers.

Further information : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use a water spray to cool fully closed containers.

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

NOROX[®]PD-40

Version	Revision Date:	SDS Number:	Date of last issue: 08.03.2023
3.3	06.06.2024	60000000160	Date of first issue: 08.04.2016

Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	: Follow safe handling advice and personal protective equip- ment recommendations.
	Beware of vapours accumulating to form explosive concentra-
	tions. Vapours can accumulate in low areas.
	Use personal protective equipment.
	Remove all sources of ignition.
	Never return spills in original containers for re-use.
	Treat recovered material as described in the section "Disposal
	considerations".

6.2 Environmental precautions

Environmental precautions	:	Prevent product from entering drains.
		Prevent further leakage or spillage if safe to do so.
		If the product contaminates rivers and lakes or drains inform
		respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	 Contact with incompatible substances can cause decomposition at or below SADT. Clear spills immediately. Suppress (knock down) gases/vapours/mists with a water spray jet. To clean the floor and all objects contaminated by this material, use plenty of water. Soak up with inert absorbent material. Isolate waste and do not reuse. Non-sparking tools should be used. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter-

6.4 Reference to other sections

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

ersion 3	Revision Date: 06.06.2024	SDS Number: 600000000160	Date of last issue: 08.03.2023 Date of first issue: 08.04.2016
Techn	ical measures		eering measures under EXPOSURE S/PERSONAL PROTECTION section.

	e on protection against d explosion	(which mig from heat a equipment. sources of	ssary action to avoid static electricity discharge ht cause ignition of organic vapours). Keep away and sources of ignition. Use only explosion-proof Keep away from open flames, hot surfaces and ignition. Keep away from combustible material. D on a naked flame or any incandescent material.
Hygie	ne measures	food and d do not smo	act with skin, eyes and clothing. Keep away from rink. When using do not eat or drink. When using oke. Wash hands before breaks and immediately ng the product.

Requirements for storage areas and containers	: Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Store in cool place. Contamination may result in dangerous pressure increases - closed containers may rupture. Observe label precautions. Store in accordance with the particular national regulations. Avoid impurities (e.g. rust, dust, ash), risk of decomposition. Electrical installations / working materials must comply with the technological safety standards. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Advice on common storage : Keep away from combustible materials.

8.2 Exposure controls

Engineering measures

Minimize workplace exposure concentrations.

Personal protective equipment

Eye/face protection	:	Ensure that eyewash stations and safety showers are close to the workstation location. Please follow all applicable local/national requirements when selecting protective measures for a specific workplace. Always wear eye protection when the potential for inadvertent eye contact with the product cannot be excluded. Tightly fitting safety goggles Please wear suitable protective goggles. Also wear face pro- tection if there is a splash hazard. Equipment should conform to EN 166
Hand protection Material Break through time Glove thickness Directive Material Break through time Glove thickness	::	Nitrile rubber < 30 min 0.40 mm Equipment should conform to EN 374 butyl-rubber 480 min 0.47 mm

SECTION 10: Stability and reactivity

10.1 Reactivity

Stable under recommended storage conditions. Heating may cause a fire or explosion.

10.2 Chemical stability

Stable under recommended storage conditions. No decomposition if stored normally.

10.3 Possibility of hazardous reactions

Hazardous reactions : Vapours may form explosive mixture with air.

10.4 Conditions to avoid

Conditions to avoid

Protect from contamination.
 Contact with incompatible substances can cause decomposition at or below SADT.
 Heat, flames and sparks.
 Avoid confinement.

10.5 Incompatible materials

Materials to avoid	: Accelerators, strong acids and bases, heavy metals and
	heavy metal salts, reducing agents

10.6 Hazardous decomposition products

Irritant, caustic, flammable, noxious/toxic gases and vapours can develop in the case of fire and decomposition

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity Not classified due to lack of data.

Product:

<u>I TOUUCI.</u>		
Acute oral toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method
Acute inhalation toxicity	:	Acute toxicity estimate: > 20 mg/l Exposure time: 4 h Test atmosphere: vapour Method: Calculation method
Acute dermal toxicity	:	Acute toxicity estimate: > 2,000 mg/kg Method: Calculation method

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878

Version	Revision Date:	SDS Number:	Date of last issue: 08.03.2023
3.3	06.06.2024	60000000160	Date of first issue: 08.04.2016

Components:

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

Dispose of wastes in an approved waste disposal facility. : The product should not be allowed to enter drains, water courses or the soil. Do not contaminate ponds, waterways or ditches with chemical or used container.

according to Regulation (EC) No. 1907/2006, as amended by Commission Regulation (EU) 2020/878
